

Steps to obtain the namespace API key from IBM account

This is the step-by-step guide to obtain the API key of an account's namespace

- 1) Navigate to <https://cloud.ibm.com/functions/> and sign in with your IBM account
- 2) Once logged in, click the "Namespace Settings"

- 3) The private API will be shown, you need to copy and paste this key to the private field "IBM_API_KEY" in the util.Constant.java
